Date:13/03/2026

Notice for Mini-Project - Review 1

All TE students are hereby informed that **Mini Project – Review 1** will be conducted on **24th March**.

1. **TE Computer Engineering (Div A): 24th March from 8:30AM onwards**
2. **TE Computer Engineering (Div B): 24th March from 1:00 PM onwards**

1. Project Progress:

- At least 60–70% of the mini project must be completed at the time of Review.
- The project should include working features, user interface (UI), and other implemented functionalities, wherever applicable.
- All groups **must bring their IoT hardware setup for demonstration** during the review.

2. Presentation:

- Each group must prepare a **PowerPoint Presentation (PPT)** explaining their **problem statement, methodology, implementation, and progress achieved so far**.
- The **PPT format should be the same as the format shared**.

3. PPT Submission:

- The **Group Leader must upload the PPT before the review** using the following link:
<https://forms.gle/wHdAbpudmKmg9VC9>

Note :

1. **Attendance of all group members is mandatory** during the review presentation.
 2. All students must be **present in formal attire** for the review.
-

3. Each member should be prepared to **explain their contribution to the project.**
4. The **Group Leader must ensure that the group details and project information are updated on RCOE CMSys.**

Students are advised to **come prepared with the implemented work and presentation** for evaluation.

Important:

1. No **separate or additional review** will be conducted later.
2. Students are advised to **plan and prepare accordingly.**
3. The **marks obtained in this review will be considered for the final evaluation of the mini project.**
4. All students are **required to create a Git repository for their project and link that repository link on CMSYS** along with their project details.
